Catalyst Fee and Subsidy Schedule

Catalyst’s fees are based upon Medicare and Medicaid rates in effect at the time of service. The duration of a service, complexity level, and licensure of the clinician you see will effect the code charged, and thus it is impossible to determine your exact copay prior to a service. However, the following are the most common services delivered. If you have a question as to the rate of services not listed, please ask your clinician or a financial intake staff member.

90837+90785  Individual Psychotherapy w/Interactivity 60 minutes  $205.00
        Medicare Copay       $30.00*
